## STAGE V

### DUMPSTER

The **HTD5** is a compact, walk behind or ride-on, high-tip, diesel-powered Dumpster designed by JCB to save you time, energy and money.

- Two speed tracking provides precision and accuracy at Low Speeds
- Tip height of 1,450 mm allowing you to empty into a skip or high sided vehicle
- Machine width of just 706mm allowing you to fit through any standard doorway or gate
- Large opening panel for easy checks, servicing and maintenance
- 1 Year Standard Manufacture warranty
- New and updated machine decals
- New Start motor allowing for more efficient start up of machine
- Standard JCB isolator switch introduced, needing specific machine tool to switch machine on, increasing machine security
